## Professional Summary

BCA student with hands-on experience in Python and AI-assisted application development. Skilled in prompt engineering and building full-stack projects using React, FastAPI, and LLM-based tools. Strong understanding of structured coding practices and a keen interest in solving real-world problems using software and generative AI.

## Projects

### Dynamic Quiz Management System
Jan 2026 - Feb 2026

https://github.com/Hey-Astreon/Dynamic-Quiz-Management-System

Programming Language : Python

- Developed a Python-based quiz application with user and admin modes for dynamic question management.
- Implemented file handling to store questions and maintain a persistent leaderboard system.
- Applied modular programming and structured error handling to improve scalability and maintainability.

### AI CRM HCP Interaction Logging Module
Mar 2026 - Mar 2026

https://github.com/Hey-Astreon/AI-CRM-HCP-Interaction-Logging-Module

Programming Language : Python, HTML, CSS, JavaScript

- Built an AI-based CRM system to log interactions with Healthcare Professionals using a form and chat interface.
- Implemented features like interaction logging, history tracking, and AI-generated follow-up suggestions.
- Used React for frontend, FastAPI for backend, and integrated AI tools to improve efficiency.

## Education

Bachelor of Computer Applications · Software Development · · Jul 2025 - Jul 2028
Amity University Noida

## Skills

### Programming Languages

Python (Intermediate Level), JavaScript (Intermediate Level)x

### Other Skills

Prompt Engineering, Git Bash Terminal. GitHub

## Achievements

Gemini Certified Student · Google For Education
Feb 2026 - Feb 2029

Earned Gemini Certified Student (University) Certification for successfully completing the Google AI Workspace assessment, demonstrating proficiency in AI-powered productivity tools.

## Certificates

Crash Course in Python · Coursera
2026 - 2026

## Extra-Curricular Activities

Handled end-to-end video editing for a school function using Adobe After Effects. Delivered a well-structured and visually engaging final video for event presentation.
